

Afayi Munsfu Obasengala

Software Engineering Student & Full-Stack Developer | Energy & Industrial Tech

■ Buea, Cameroon | ■ 620 788 966 | ✉ afayingala67@gmail.com | GitHub: [Insert URL] | LinkedIn: [Insert URL]

PROFESSIONAL SUMMARY

Innovative Software Engineering student with hands-on experience in full-stack development, mobile and web applications, and data-driven solutions. Skilled in Flutter, React, Node.js, Python, and database management. Experienced in designing scalable systems, real-time applications, and analytical dashboards. Passionate about applying technology to industrial and energy-sector challenges — with a strong interest in digital transformation, IoT, and data analytics within the energy industry.

EDUCATION

BSc Computer Engineering <i>University of Buea — Buea, Cameroon</i>	<i>Oct 2022 – Dec 2026 (Expected)</i>
Advanced Level Certification <i>Baptist High School — Buea, Cameroon</i>	<i>Sep 2021 – Jun 2022</i>
Ordinary Level Certification <i>Saker Baptist College — Limbe, Cameroon</i>	<i>Sep 2015 – Jun 2020</i>

PROFESSIONAL EXPERIENCE

Software Engineering Intern — Zinger Systems Ltd <i>Cameroon</i> - Developed backend logic using Parse Server and MongoDB, implementing complex business rules for enterprise applications. - Built frontend modules with Vue.js and TypeScript, contributing to scalable and maintainable UI components. - Designed UML diagrams and system architecture documentation to support long-term engineering decisions.	<i>Internship</i>
Event Planner — She Code Africa <i>Buea, Cameroon</i> Organized tech events and workshops, strengthening project management, team coordination, and leadership capabilities.	<i>Volunteer</i>

KEY PROJECTS

QoS Monitoring Portal | [React](#) · [Node.js](#) · [OrientDB](#)

Full-stack portal monitoring mobile network performance with real-time dashboards and analytics — directly applicable to energy network monitoring use cases.

Full-Stack Task Management Application | [Vue.js](#) · [TypeScript](#) · [Quasar](#) · [Parse Server](#)

Enterprise-ready platform with role-based dashboards, validated task states, weekly planners, and performance analytics.

Defendant Dashboard Analytics | [Vue.js](#) · [ApexCharts](#)

Data-driven dashboards for case and payment management with graph/table drill-downs, dynamic filters, and UML-modeled data flow.

React & Firebase Chat Apps | [React](#) · [Firebase](#)

Real-time messaging with authentication, message persistence, and online presence tracking.

Image Denoising Using Hybrid Filters | [Python](#)

Noise-reduction algorithms preserving image quality — demonstrates applied algorithm engineering and signal processing.

Cutie — Productivity & Self-Care App | [React Native](#)

Mobile app for daily planning and mood journaling with smooth animations, local persistence, and intuitive UX.

ChatApp Database | [MongoDB](#) · [PostgreSQL](#)

Database schema design with stored procedures and query optimization for a real-time messaging system.

Integration Testing Framework | [Python](#)

Automated test scripts validating module interactions, emphasizing software reliability and QA engineering.

Cinematic Video Portfolio | [HTML](#) · [CSS](#) · [JS](#)

Responsive personal portfolio with media optimization and interactive galleries.

TECHNICAL SKILLS

Languages & Frameworks	Java, Python, JavaScript, TypeScript, Flutter, React, React Native, Node.js, Vue.js
Databases & Storage	MongoDB, Firebase, PostgreSQL, OrientDB, PHPMyAdmin, MySQL Workbench
Tools & Platforms	Parse Server, Git, GitHub, ApexCharts, Quasar Framework
Core Competencies	Full-Stack Development, System Architecture, UML Design, Data Analysis, Technical Documentation, QA & Testing
Soft Skills	Project Management, Event Planning, Problem Solving, Debugging, Team Collaboration
Languages	English (Native) French (Limited) Pidgin (Full Professional)
